

## **Grounds Maintenance – Service Delivery 2018/19**

### **Background**

#### **The Environmental Protection Act 1990**

The Environmental Protection Act 1990 (The Act) imposes a duty on local authorities and certain other landowners and occupiers (the duty bodies) to keep specified land clear of litter and refuse so far as is practicable. The Act also places a duty on local authorities or Scottish Ministers to keep public roads clean so far as is practicable, including keeping roads and footpaths clean of detritus and from weed growth.

The Act does not place any duties on local authorities or land owners on the standards of grounds maintenance that should be achieved. Therefore it is at the discretion of local authorities to establish service standards for the maintenance of its open spaces, parks and woodlands.

The Code of Practice on Litter and Refuse issued under section 89 of The Environmental Protection Act 1990 defines standards of cleanliness which are achievable in different locations and under differing circumstances. It is concerned with how clean land is, and not grounds maintenance activities other than the removal of weed growth..

The Code of Practice is based on the following two principles:

- Areas which are habitually more heavily trafficked should have accumulations of litter, detritus and weed growth cleared away more quickly than less heavily trafficked areas; and
- local authorities and other land owners should develop zones to create an environmental hierarchy to enable services to be delivered on a priority basis.

Therefore, the service has developed grounds maintenance zones for service delivery which is consistent with the approach taken for cleansing activities.

#### **Grounds Maintenance Zones**

Zoning is based on location and land use with land types being divided into broad categories or zones according to land use and volume of traffic. Within the broad range of zones it will be the local authority or other duty body to allocate geographical areas to a particular zone. Zones within West Lothian are as follows:

**Zone 1:** town centre

**Zone 2:** high density residential

**Zone 3:** low density residential

**Zone 4:** sports fields and facilities

**Zone 5:** open spaces and parks

**Zone 6:** industrial areas

**Zone 7:** classified road and verges not included in zones 1 - 3

**Zone 8:** rural roads and verges

## SERVICE STANDARDS

As previously indicated, the Environmental Protection Act 1990 does not stipulate the standard of grounds maintenance that Local Authorities are required to provide, and is more concerned with the cleanliness standard of the environment. However in order to provide a degree of operational planning, service standards for grounds maintenance activities have been designed around resource availability, zoning methodology and the Code of Practice on Litter and Refuge that defines standards for cleanliness and weed growth. The grounds maintenance standards that are maintained and are as follows:.

Zone / Category		Zone Summary / Remarks	Grass Cutting	Weed Spraying	Hedge Cutting
1	Town Centre	This would include areas of high footfall associated with educational establishment, particularly secondary and primary schools	12 x annually	2 x annually	1 x annually
2	Residential (high density)	Terraced, tenemental, flatted housing and educational establishments	12 x annually	2 x annually	1 x annually
3	Residential (low density)	Detached and semi-detached Housing and educational establishments	12 x annually	2 x annually	1 x annually
4	Sports fields and facilities	Football pitches, athletic fields etc. and all sports facilities managed by West Lothian Council	12 x annually	2 x annually	Ad Hoc
5	Open spaces and parks	Open spaces and parks not classified as common ground	12 x annually	2 x annually	Ad Hoc
6	Industrial areas	Areas of common ground within industrial estates	12 x annually	2 x annually	Ad Hoc
7	Classified roads and verges not included in zones 1 - 3	Classified Roads (A, B and C) linking towns and residential areas	1 x annually	Ad Hoc	Ad Hoc
8	Rural roads and verges	These areas have specific health and safety requirements to ensure safe operation	Sightlines as required	Ad Hoc	Ad Hoc
