

Skills Development Scotland (SDS) supplies information about the destinations of school leavers from publicly funded Secondary Schools and other schools, at an individual level, to the Scottish Government's Education Analytical Services Division. The return is based on a follow up of young people who left school between the 1st August 2011 and the 31st July 2012. The exercise was undertaken during the month of September 2012 and produced a snapshot of destinations as at Monday 15th October 2012.

This data has undergone a matching process between SDS and the Scottish Government to reach agreement about the leavers who are within the scope of the Scottish Government's Initial School Leaver Destination Return. Only leavers from publicly funded mainstream secondary schools are included in the SLDR, therefore, leavers from specialist provision are not within the scope of the tables below.

This year the Scottish Government will not be publishing the results of the initial return until June 2013 therefore SDS agreed to share the results with local authorities prior to this publication.
