

8. INTEGRATION JOINT BOARD INDUCTION

A report had been circulated by the Head of Health providing an update on planned organisational development induction sessions for Integration Joint Board members.

The Board was informed that a programme for induction and development was being progressed within NHS Lothian through NES. It was open to all IJB members and relevant senior officers for all four Lothian IJBs.

The pan Lothian induction would be provided in two phases. The Phase 1 session was available on several dates to ensure that all the Lothian IJBs' members had the chance to attend. The dates available for members to choose from were listed in the report. The aim was that the pan Lothian session would provide a good grounding for IJB members and senior officers in how things were to work in the new IJB regime.

Phase 2 was a tailored programme for each IJB base on the Scottish Government IJB Guide and discussions were currently underway as to what that might look like. In addition, a local West Lothian Induction had been held on 19 August 2015.

It was recommended that the Shadow Board consider the contents and note that events were programmed across Lothian in addition to the West Lothian session held on 19 August 2015.

Decision

To note the terms of the report.
