2.1 - Violence, Disorder and Antisocial Behaviour

Throughout this period, The Community Policing Team have continued to work hand in hand with partners and other agencies such as West Lothian Council Safer Neighbourhood Team, Housing and Schools. Doing so creates better communication and a greater detailed understanding of the problematic areas that allows police to engage in early intervention strategies and prevention activities. With the Safer Neighbourhood Team, a number of joint visits have been made throughout the ward resulting in occupiers being warned and issued tenancy warnings over loud music and anti-social behaviour. Carrying out this task benefits the complainer and aids in reducing further escalation and call demand. At present, neighbourhood disputes and anti-social behaviour type calls account for a large percentage of calls to Community Officers.

During the festive period, police received a number of calls to licensed premises throughout the ward area regarding ongoing disturbances or violence related behaviour. These incidents were tackled by carrying out licensed premises checks at peak times and high visibility foot patrols in and around the problematic premises. Throughout the festive period, 2 individuals were reported to the court for violent behaviour.

Police have recently received a number of complaints regarding youth issues and anti-social behaviour in and around the East Calder Medical Practice and Partnership Centre. Given the information provided, police have increased high visibility patrols at the relevant times to reduce the issue and deter further incidents.

A recent incident involving the death of a dog has taken place within the ward area. Due to CCTV evidence and local enquiry, 2 persons were arrested and charged with offences under the Dangerous Dogs Act and a report submitted to the Procurator Fiscal.

The police wish to encourage all members of the public to report incidents of anti-social behaviour within their ward area. Doing so allows the data to be stored and analysed creating an intelligence picture which results in the problematic areas being targeted by police. Information provided by the public can remain anonymous.

2.2 - Road Safety

Roads Policing continue to monitor the ward area and act on local intelligence being supplied by members of the public. With this assistance and information provided, officers can actively target those responsible for committing driving offences such as speeding, driving with no licence, driving whilst disqualified and driving without valid insurance. Police rely on members of the public providing this type of intelligence allowing them to target offenders in the area and take action when required.

During the December and January months, Police carried out a festive Drink Drive campaign resulting in a number of offenders being arrested and reported to the PF for Road Traffic offences. Offenders were charged with offences such as Driving Impaired through Drink/Drugs and Driving under Influence of Alcohol.

A number of complaints and concerns remain ongoing within the ward area in terms of speeding, parking issues and other Road Traffic incidents. Police will remain to monitor these issues and where possible carry out routine patrols and stop checks at the problematic areas.

Police wish to remind members of the public against inappropriate/dangerous/inconsiderate parking in and around the local schools within the ward area. Police continue to support the schools in The Parksmart Scheme. In an effort to increase the awareness of this initiative, Sergeant Wells will be attending the West Lothian Parents Teacher Association forum along with WLC Education to highlight the benefits of the scheme.

Social Media platforms such as Facebook and Twitter are still being used by Police Scotland to provide assistance with driving standards and expectations as well as supplying local information.

2.3 - Dishonesty

During the months of December and January, police were contacted regarding a series of Housebreakings and Attempt Housebreakings to domestic and business premises within the ward area. The Criminal Investigation Unit continue to carry out investigations in regards to these offences. At present through local enquiry, 2 individuals have been identified and have been arrested, charged and reported to the court.

Police encourage members of the public and business owners to consider the use of CCTV and appropriate outside lighting. CCTV is a positive deterrent which aids in minimising this crime type along with effective lighting during the darker evenings. Further information and guidance can be located on the Information Commissioners Office website.

During this period, police have been contacted on several occasions regarding bogus phone calls whereby victims have been scammed into transferring large sums of money to an unknown account. Enquires are currently being investigated by the CID department. Further information regarding Bogus Callers can be found on the Police Scotland website.

2.4 – Drug Dealing and Misuse

Along with the Criminal Investigation Unit, the local Community Policing Team are directly and actively involved in the disruption of drug dealing and production within the ward area within domestic properties. Doing so allows officers to link in with other agencies such as Housing and ensure the relevant tenancy warnings are progressed.

Police remain to gather community intelligence from members of the public resulting in Misuse of Drugs Act warrants being executed in the ward area. Carrying out these targeted operations has resulted in the seizure of drugs, drug equipment and cash. Several offenders have been reported to the procurator fiscal as a result of these operations.

The majority of drug related crime enforced by police stems from intelligence being provided by members of the public. The public are urged and encouraged to report any suspicious activity that they see or hear. Doing so allows police to gather information which allows disruption to the individuals highlighted. Members of the public are again reminded that they can contact the police as an anonymous person. This can be carried out by phoning 101 or by contacting Crimestoppers by email or 08005551111. The Police continue to rely on information from the public to tackle this type of crime.

West Lothian Drug and Alcohol Service are also a local service who can be used to support individuals and their families who suffer from alcohol and or substance misuse. More details can be obtained by contacting WLDAS on tel.01506 430225 or WLDAS.com
