

COVID-19 RESPONSE

The Board considered a report (copies of which had been circulated) by the Chief Officer providing an update to the West Lothian IJB on how services within the West Lothian Health and Social Care Partnership had responded to the Covid-19 pandemic.

The Board wished to thank staff in all health and care settings for their formidable efforts during the Covid-19 crisis and commended their flexibility and adaptability as they resumed normal activities while still facing challenges relating to the virus.

It was recommended that the Board note the partnership response to the Covid-19 pandemic and the work to be undertaken to remobilise services as the pandemic eased.

Decision

To note the recommendation in the report.
