Tern	ns of Report
1.	High Risks
1.1	At its meeting on 28 March 2018 the Audit, Risk and Governance Committee asked that the IJB's high risks be reported to all of its meetings. This report fulfils that obligation.
1.2	Risks are assessed on the basis of a five by five grid of likelihood and impact, and therefore the lowest possible score is one and the highest is 25. The IJB's high risks are defined as those risks which have a current risk score of 12 or more.
1.3	 Appendix one to this report sets out the IJB's high risks. There are two high risks, as follows: IJB002 Failure to effectively implement the Strategic Plan (score 12); IJB004 Inadequate Funding to Deliver Strategic Plan (score 12).
1.4	In relation to appendix one:
	 The traffic light icon represents the risk ranking based on the score; these are explained further in the table at the start of Appendix 1; There is a code, title and description for each risk; The original risk score represents the uncontrolled risk, that is to say the risk without controls in place, and provides an appreciation of the potential impact if controls are absent or fail; The current risk score represents the current risk, i.e. assuming that current controls are in place and effective; The internal controls are those processes in place to reduce the risk from original risk score to current risk score; The risk actions are those measures which are intended to further reduce the current risk. The report only includes those which are in progress. Once marked as complete, risk actions should be included as internal controls and taken account of when assessing the current risk score.
1.5	The standard risk assessment methodology is attached as Appendix 2.

۵	IJB002 Failure to effectively implement the Strategic Plan				The Strategic Plan sets out how the IJB intends to deliver the nine national health and well- being outcomes through our strategic priorities and transformational change programmes. Failure to effectively develop and implement strategic commissioning plans for specific care groups within the medium term financial planning framework may lead to key objectives not being achieved. The Covid-19 pandemic is likely to impact on full delivery of the plan and is likely to delay the timeframe of some actions outlined in supporting strategic commissioning plans.
